Welcome to Majestic Commercial

Our industry is operating in perhaps the most challenging climate it has ever faced. Hospitality finds itself in the eye of a perfect storm of increased taxation and geo-political uncertainty – and the government’s decision to end the wine easement and implement a more complex and costly duty regime with 30 new tax bands has only added to the burden we face. But it is a burden we must face together – and we therefore aim to support you in any way we can.

Our On-Trade business has grown strongly over the past few years, and we constantly strive to improve our service and offering. As the rapidly expanding on-trade division of Majestic, we provide the hospitality sector with a curated selection of more than 1,300 wines, including 300 on-trade exclusives and a growing portfolio of agency brands. Tailored specifically for the on-trade, our range offers unique and exceptional wines that help your business stand out, including award-winning South African wines from Ghost in the Machine by Bruce Jack, the Italian estates Valiano and Torre Mora, and the family-run Henri Ehrhart in Alsace, France.

Over the past year, we’ve been thrilled to support our On-Trade customers as they adapt and in many cases thrive despite the headwinds we face. As we navigate those market challenges, our team of expert colleagues remains dedicated to supporting your success at every turn.

Trust lies at the heart of every strong relationship – whether that’s between businesses, or with your customers. Our commitment to a partnership approach was proudly recognised when we were named Drinks Business On-Trade Supplier of the Year 2024. This prestigious award is a significant milestone for us, underscoring our evolution from being the on-trade sector’s “best-kept secret” to a trusted and celebrated partner.

Our On-Trade customers rely on us to provide the tailored support they need, not just to meet but exceed expectations. Together, we’re raising the bar for success in the on-trade.

Trust our products.

Our On-Trade range has never been stronger, featuring more than 300 on-trade exclusive wines, curated by our award-winning buying team, which includes a Master of Wine and dedicated on-trade buyer.

Trust our insight.

Through Majestic Retail’s growth and our acquisition of Vagabond, we’ve gained invaluable knowledge of consumer preferences, equipping us to support your on-trade business’s success through first hand, hyper-local insights.

Trust our service.

Backed by 210 stores nationwide, we deliver unmatched flexibility, seven-day service, market-leading minimum order requirements, and expert local advice from our highly-qualified store teams – all tailored to meet the needs of hospitality businesses, large or small.

Our multi-award-winning on-trade range of wines, beers and spirits is stronger and more diverse than ever. Find them all in our latest brochure.

Our Responsibility

Taking responsibility, driving change:

At Majestic, we're passionate about making a positive impact – on the planet and within the communities we proudly serve.

Environmental sustainability: We're on a mission to reduce our carbon footprint and champion sustainable practices across our operations:

Renewable energy: 99.72% of our operations are powered by renewable electricity, supported by Renewable Electricity Guarantees of Origin (REGO).

Greener fleet: We're committed to cutting air pollution and CO2 emissions and have introduced hybrid options alongside a CO2 cap of 129g/km for our company cars - replacing many of our existing diesel vans with electric vehicles, and aiming for all future additions to the van fleet being electric by 2030.

Energy efficiency: All new stores since 2020 utilise LED lighting and we'll continue replacing halogen lights with energy efficient sources in all future store upgrades.

For colleagues and customers we offer EV charging points at all new stores opened since the summer of 2021, and at our Watford support centre. We'll continue this roll-out as we develop our store estate.

Sustainable wine practices: As members of the Sustainable Wine Roundtable (SWR) since 2024, we collaborate globally to tackle industry challenges like packaging innovation, low-carbon logistics and eco-friendly vineyard management.

We are certified by the Soil Association to import and distribute organic wine.

Recycling: We recycle all pallets across our transport and supply chain networks and recycle all the shrink wrap we use to keep pallets secure. We also divert 100% of our recyclable waste and 90% of our general waste away from landfill.

Our commitment also includes creative initiatives like our cork recycling scheme, which has repurposed over four tonnes of cork in partnership with The Eden Project.

Social responsibility:

We believe in fostering inclusivity and giving back to society:

Charity: Becoming a key part of the communities we operate in is at the heart of the Majestic DNA. Over the years Majestic has raised more than £1 million for various charities through the incredible support of our colleagues, customers and suppliers. Through our previous approach to work with a national Charity of the Year, we raised over £125,000 for The Brain Tumour Charity in 2021, and in 2022 we donated more than £200,000 to Alzheimer's Society.

Diversity, equity and inclusion: In 2021, we launched our Diversity in Wine Scholarship, with the aim of helping to increase diversity and inclusivity in the wine industry. The annual programme offers candidates from Black, Asian, Minority Ethnic or other diverse backgrounds the opportunity to complete their Wine and Spirit Education Trust (WSET) Level 2 qualification free of charge, with no obligation to take up a role with Majestic upon completion of the course. Since its inception, more than 50 scholars have successfully graduated from the Diversity in Wine Scholarship, with many going on to start new careers in the wine industry.

Champagne

Few drinks capture luxury and celebration quite like Champagne. This historic region, strictly regulated to ensure quality, produces the world's finest sparkling wines. Made using the traditional method with secondary fermentation in bottle, Champagne develops its signature complexity and finesse. The region's chalky soils, cool climate and centuries of expertise combine to create wines of exceptional balance, freshness and longevity. Whether it's the racy elegance of Blanc de Blancs, the depth of Pinot Noir-led blends or the

delicate charm of a subtle rosé, there's a Champagne for every occasion. From prestigious Grandes Marques to grower Champagnes that showcase individual terroirs, Majestic's On-Trade selection brings together exceptional choices to suit every menu. Pairing beautifully with seafood, creamy cheeses and even fried dishes, Champagne is as versatile as it is indulgent. Whether toasting a special event or elevating everyday moments, our selection offers bottles with heritage, precision and flair.

Champagne Deutz is firmly dedicated to sustainable viticulture and winemaking through the preservation of terroirs, the reduction of carbon footprint and the improvement of biodiversity.

The hallmark of Deutz is its balance—delivering richness and finesse in every sip. Often described by Sommeliers as a Champagne “for those in the know” and highly respected for its finesse, elegance and complexity.

Rosé

Rosé has shaken off its seasonal reputation to become a year-round favourite, offering a perfect balance between freshness and flavour. France leads the way, but exciting examples are emerging from all over the world, including English Pinot

Noir rosé and bold, structured versions from Australia. Winemakers use different techniques – direct pressing for elegance, saignée for intensity – resulting in a spectrum of styles, from bone-dry and mineral-driven to rich and expressive. Rosé isn't just about summer anymore; its crisp acidity and subtle fruit make it an ideal food wine, pairing effortlessly proving its versatility.

Provence

Meanwhile, white Provence wines are gaining recognition for their crisp acidity and aromatic finesse, offering a refreshing alternative.

With continued growth in UK sales, Provence's wines embody elegance and versatility, perfect for dining, entertaining, or enjoying year-round.

Nestled at the base of Mount Etna in Sicily, the Torre Mora wine estate spans 13 hectares of organically cultivated vineyards, benefiting from the unique microclimate of Europe's most active volcano. At elevations of 650 to 700 meters, Rovittello soils features basaltic stones, pumice, and volcanic ash, while Linguaglossa's soils are softer and ash-rich. This rugged terrain demands "heroic viticulture," where traditional hand-tending methods, including spurred cordon and "alberello" techniques, are essential. Torre Mora specialises in Etna Rosso DOC, showcasing Nerello Mascalese and Nerello Cappuccio, and Etna Bianco DOC, highlighted by the refreshing Carricante.

Their wines capture the essence of Etna, balancing sapidity, fruitiness, and spice with elegance and complexity. Named after the terraced vineyards, the Sicilian word for staircase, "Scalunera" reflects the UNESCO-recognised lava stone walls that shape the landscape, resembling an ancient amphitheater.

Truly unique sustainably made wines, exclusive to Majestic Commercial, for the on-trade.

Argentina

Argentina, particularly Mendoza, is renowned for its Malbec wines, which have become a global favourite. Mendoza's high altitudes and sunny climate produce Malbec with deep color, rich fruit flavours, and smooth tannins. Known for its full-bodied profile with notes of dark fruits and spice, Malbec

has captured the attention of wine lovers worldwide. In the UK, Malbec from Mendoza has gained significant traction on restaurant wine lists, thanks to its approachable style, versatility, and value for money. It pairs well with a variety of dishes, making it a popular choice for diners seeking quality and consistency.

Few grape varieties are as closely linked to a country as Malbec is to Argentina. Originally from France, Malbec found its true home in Argentina's high-altitude vineyards, where the combination of sunshine, cool nights and mineral-rich soils creates wines of incredible depth and character. Mendoza remains the heartland, producing Malbecs with bold dark fruit, velvety tannins and a signature touch of spice. Winemakers continue to explore new sites and techniques, from concrete fermentation to old-vine plantings, pushing the boundaries of what Malbec can be. South Africa

South Africa's winemaking history stretches back over 350 years, in fact it is the only country with an official winemaking anniversary. The 2nd of February 1659 is the day the first wine was made from Cape grapes, and today blending Old World tradition with New World innovation is still front of mind. The country's vineyards are shaped by

a unique mix of cooling ocean breezes, diverse soils and mountain slopes, allowing for an incredible range of wine styles. South Africa's winemakers are known for their commitment to sustainability and their creativity. The result is wines that are not only expressive and engaging but also reflect a deep respect for the land.

GHOST IN THE MACHINE

Bruce Jack is one of the world's most experienced winemakers, with over 30 years of crafting wine across four continents. Yet, his relentless passion for innovation remains undimmed. His "Ghost in the Machine" range exemplifies his groundbreaking approach, featuring "hipster-style" wines that challenge conventions. These include early-picked, whole-bunch, wild red ferments and "natural" skin-contact whites, crafted from carefully selected vineyards.

This project, 15 years in the making, required securing specific vineyard leases and reimagining their management to produce perfectly balanced fruit for these bold styles. After years of experimentation, the range launched in 2021 to mark Bruce's 30th vintage.

It was met with immediate acclaim: the 2019 Ghost Shiraz won a Masters Medal at Drinks Business International, and subsequent vintages have garnered top accolades, including South Africa's best Shiraz and global gold medals. Equally innovative is the packaging—a world-first design by Rohan Etsebeth of Archival Studio.

Each bottle features unique, triple-layered labels applied through a multi-pass labeling process, making every bottle distinct. This creativity earned the Supreme Champion title at the 2024 Harpers Design Awards. Exclusive to the UK on-trade via Majestic Commercial, Ghost in the Machine wines celebrate unbounded winemaking imagination and unparalleled craftsmanship, the perfect conversation starter on any wine list.

Cloudy Bay is the winery that redefined Marlborough, proving New Zealand could produce world-class wines with a style all its own. Established in 1985, it was one of the first to harness the region's long sunshine hours, cooling maritime influence, and free-draining soils to create a Sauvignon Blanc that changed the global wine landscape. The signature intensity, balance, and crisp, aromatic profile have since become the benchmark for the variety worldwide.

Australia

Australia's winemaking landscape is as diverse as its terrain. The country is known for powerful Shiraz, structured Cabernet Sauvignon and bold blends, as well as refined Chardonnay. Winemakers continue to experiment, embracing everything from traditional bush vines to cutting-edge, low-intervention

techniques; the result is wines that reflect a sense of place. Sustainability is also a growing focus. With a combination of history, innovation and a climate perfectly suited to grape growing, Australian wines shine and are always a customer favourite.

Wirra Wirra, an Aboriginal term meaning “amongst the gum trees”, was established in McLaren Vale in 1894 by the charismatic Robert Strangways Wigley, a former state cricketer with a flair for the unconventional. As one of South Australia’s pioneering wineries, it was among the first to export globally in the early 1900s. The Wirra Wirra team combines serious winemaking with a playful spirit, famous for their imaginative ideas and sense of humour.

The winery features a giant watermelon-hurling catapult, hosts hobby horse races, and boasts a $\frac{3}{4}$ -tonne bell that rings to celebrate the end of vintage and other special moments. As a leader in sustainability, Wirra Wirra has been committed to environmental responsibility since the 1980s and the winery is on track to achieve Net Zero by 2030. With initiatives like planting over 5,300 trees and installing 400 solar panels, Wirra Wirra has reduced its carbon emissions by 50%, demonstrating their dedication to preserving the land and environment. This dedication ensures that every bottle is produced with the highest quality and sustainability in mind.

Rest of the World

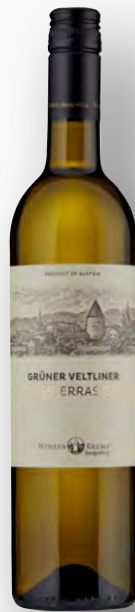

At Majestic, we celebrate the diverse and intriguing world of wine, offering selections from fascinating countries like Greece, Romania, Slovenia, Austria, and Germany. These regions bring unique varieties like Assyrtiko, Fetească Regală, and Saperavi, alongside classics such as Riesling and Grüner Veltliner. Embracing

Our eclectic, off-the-beaten-track range adds excitement and depth to wine lists, encouraging exploration and discovery that delights both customers and sommeliers alike.

Austria

Grüner Veltliner is Austria's most celebrated white grape, known for its bright acidity, citrus-driven flavours and signature hint of white pepper. While traditionally grown along the steep terraces of the Danube, it has found a home in other cool-climate regions, including parts of New Zealand and even pockets of the UK. The grape's hallmark is its versatility – light and crisp when young, yet capable of developing rich, textured complexity with age. Depending on where it's grown, Grüner Veltliner can range from zesty and mineral-driven to fuller-bodied with notes of stone fruit and spice. With its ability to balance freshness, purity and intensity, Grüner Veltliner is once again gaining attention beyond its Austrian roots, offering an exciting alternative to classic white varietals.

A group of people are walking away from the camera down a path in a vineyard. The vineyard rows are filled with grapevines whose leaves have turned a vibrant golden-yellow, indicating autumn. The path is covered with dry grass and fallen leaves. In the background, a dense forest of trees with similar autumnal colors covers a hillside under a soft, hazy sky.

A warm, social scene featuring three people. In the foreground, a hand holds a tall, textured glass of beer with a thick head of foam. To the left, a woman with dark hair smiles, holding a glass of orange juice. To the right, a woman with blonde hair smiles, holding a glass of red wine. On the table in front of them is a plate of appetizers, including strawberries and rolled-up food items. The background is softly blurred, emphasizing the people and the drinks.

No & Low

No and low-alcohol drinks are beverages that contain little to no alcohol, catering to the growing demand for healthier, mindful drinking choices. With a rising focus on wellness and moderation, these drinks offer consumers the option to enjoy a full-flavoured experience without the effects of alcohol.

The category has seen impressive growth in the UK, particularly in restaurants, where many establishments now feature dedicated no and low drink menus.

FRUIT LIQUEUR

Chinola Passion Fruit Liqueur 700ml VG £££££

Chinola is the world's first vine-to-bottle fresh fruit liqueur, made with 100% fresh, estate-grown passionfruit in the Dominican Republic.

Every bottle of Chinola is hand-crafted, ensuring the highest quality and a true expression of the vibrant passionfruit's flavour. The brand is deeply committed to sustainable farming practices, focusing on water conservation and supporting the local economy.

Known for its fresh fruit notes, Chinola offers mixologists a premium ingredient for creating cocktails. Best known as the key ingredient in a Passionfruit Martini.

One of the simplest yet most delightful drinks is the Chismosa, which only requires sparkling wine to create a refreshing cocktail in seconds.

Its versatility also extends to food and desserts, where it adds a tropical flair and a burst of natural sweetness and zing. Whether it's a cocktail or an ingredient in gourmet dishes, Chinola enhances any experience with its bright, authentic flavour.

This liqueur's unique origin and commitment to sustainability make it an excellent choice for eco-conscious bars, restaurants, and consumers who appreciate top-quality spirits.
